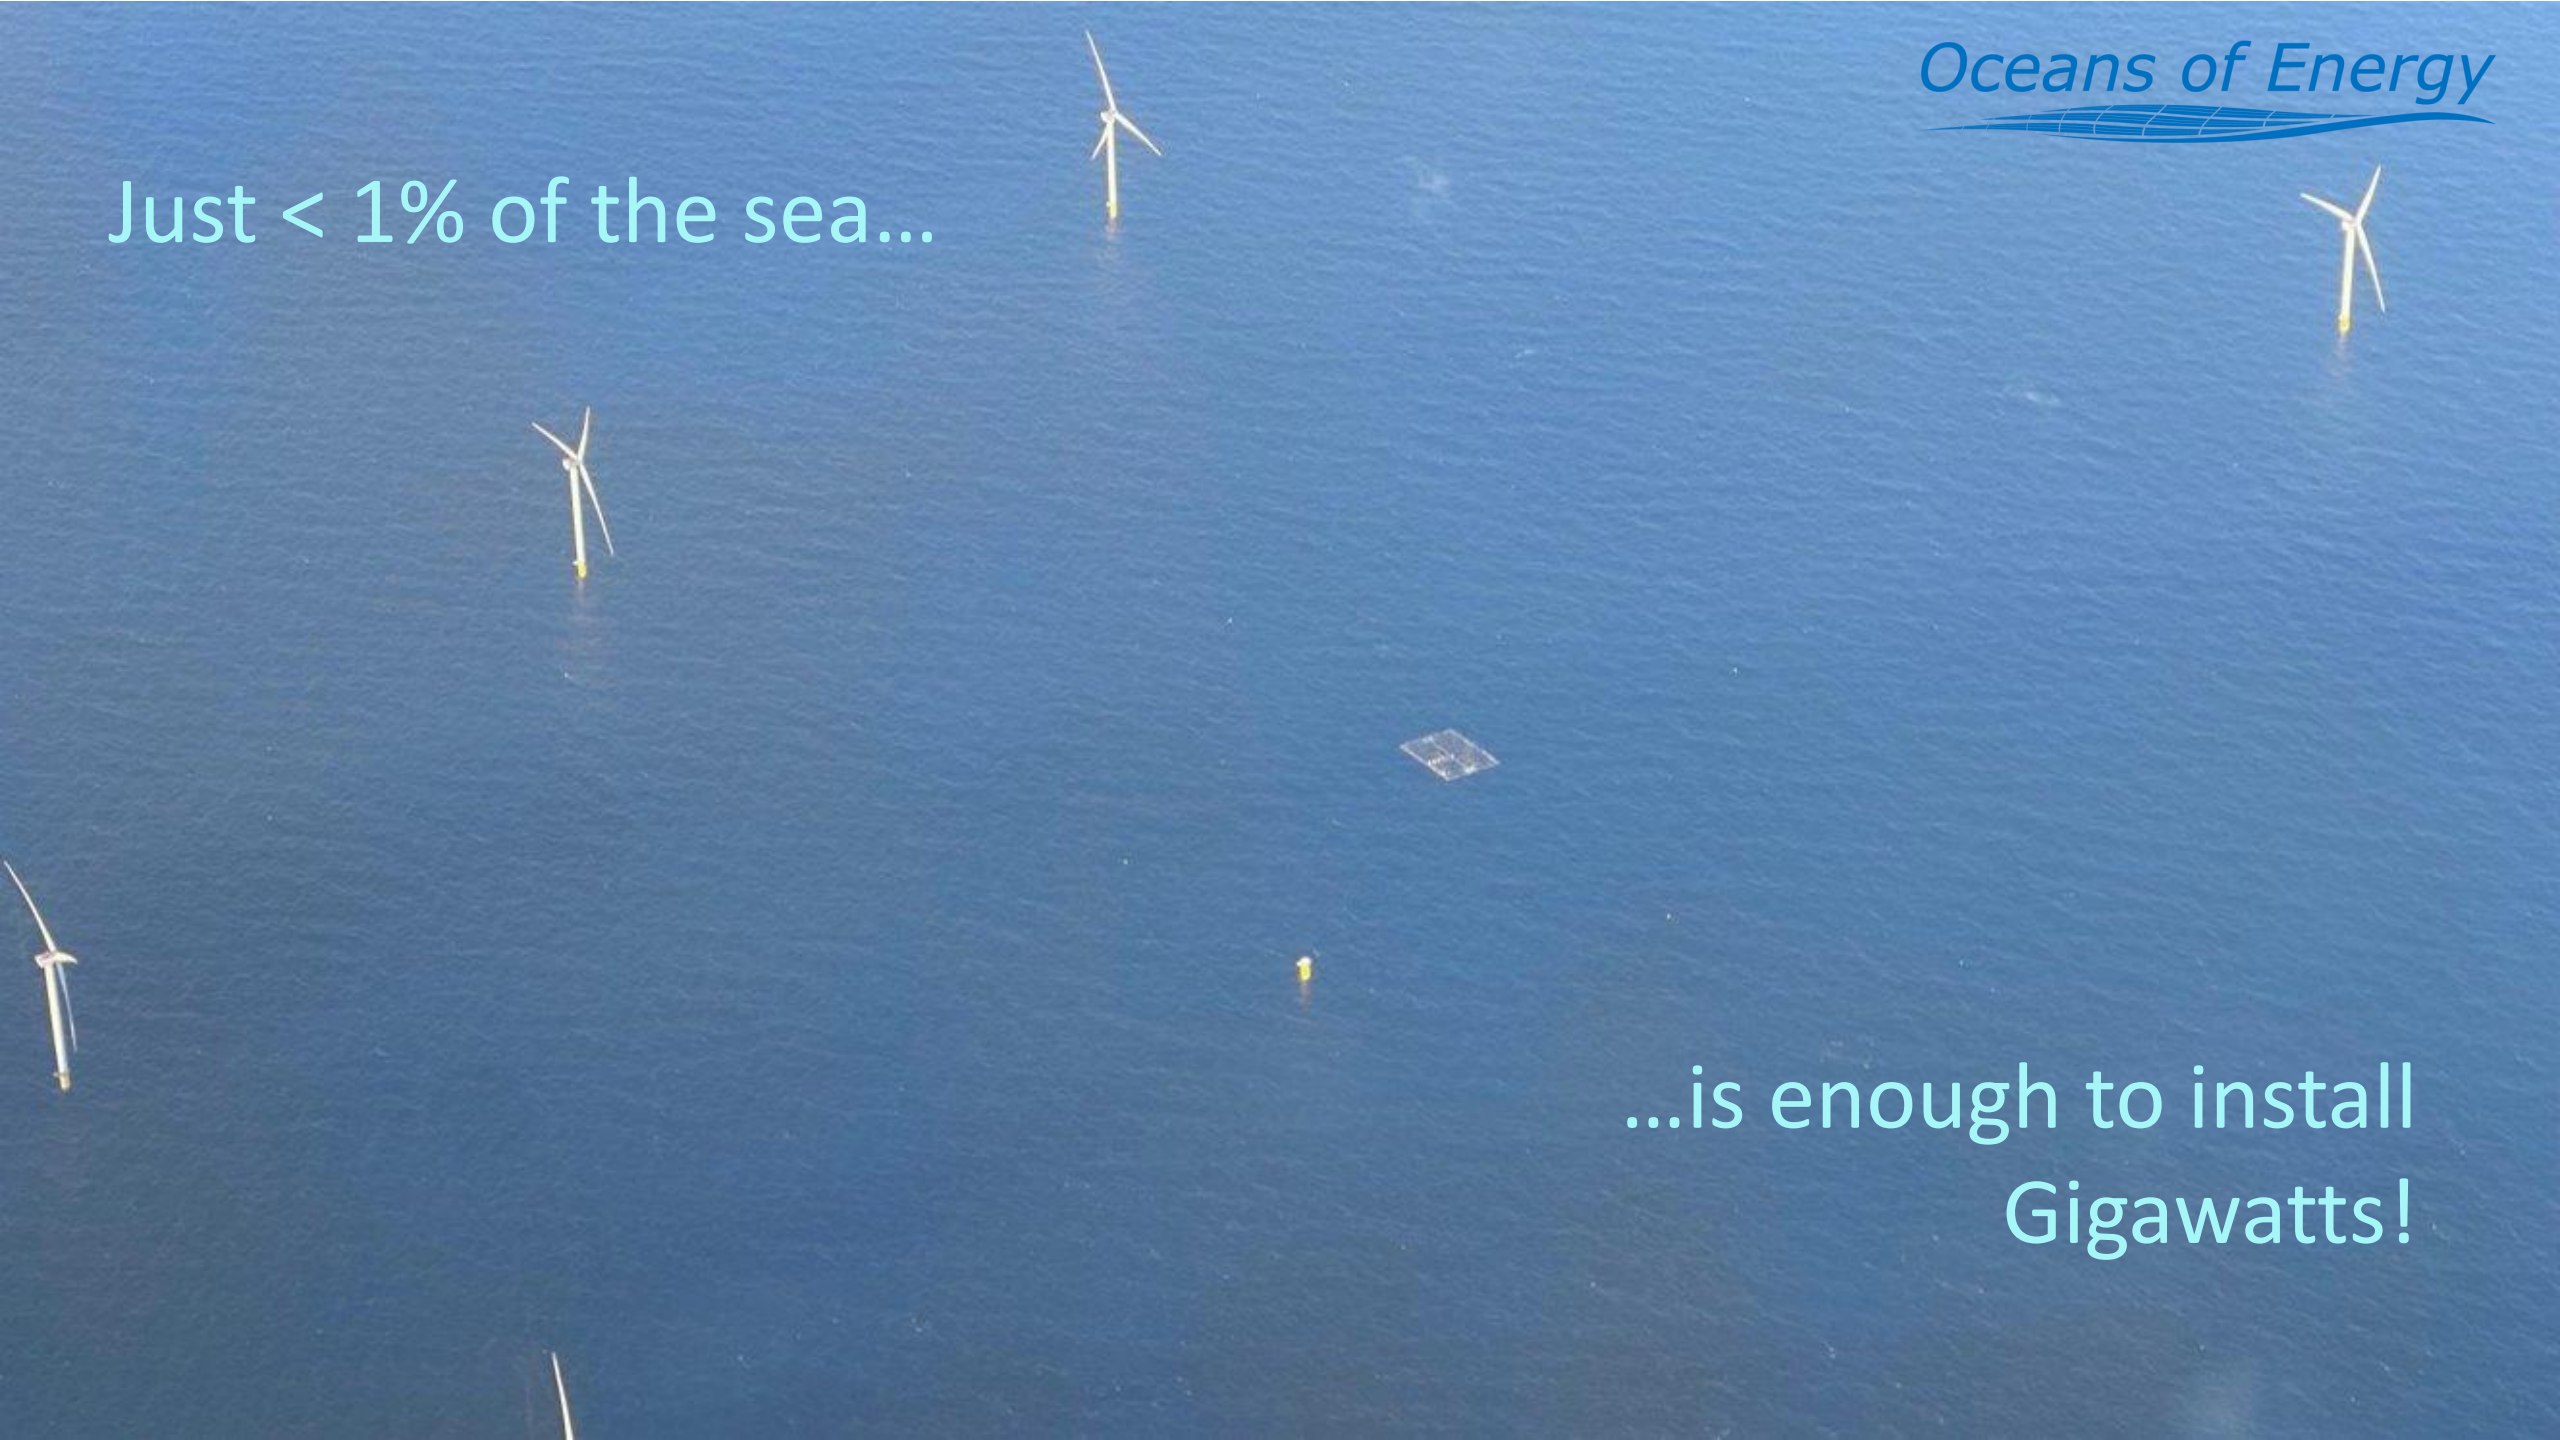
Oceans of Energy

Let’s install solar panels at the sea…

…and preserve the island space for other usage



Oceans of Energy
Just < 1% of the sea…
…is enough to install
Gigawatts!

Oceans of Energy
Modular. Scaleable.
Robust. Any waterdepth.

Oceans of Energy
Waterlilly shape: low hydrodynamic /wind loads
“Blanket”: good coverage against evaporation
November 2025

In Cyprus, Oceans of Energy is looking for

Cypriot marine contractors:

- towing of farm
- lowering anchors to the seabed
- installing cable from farm to shore
- 25 years inspection & maintenance

All activities supported by OOE: training, procedures, O&M data
